

# OVERVIEW

Aim High, Work Hard, Dream BIG!

AMBITIONS & ASPIRATIONS

At **The Parkland Federation**, we expose our pupils to expansive opportunities to think about their future aspirations. We are proud to provide a curriculum that challenges stereotypical thinking or biased assumptions about career aspirations for our children. Career-related learning helps children to understand who they could become and to develop a healthy sense of self that will enable them to reach their full potential. Early exposure can have a lasting impact on children's development and perceptions of different occupations, and of the subjects enabling access to them. Our curriculum is designed to give children from EYFS up to Year 6 a wide range of experiences and exposure to education, transitions and the world of work. We motivate children in order to give them self-belief and to connect learning to life from the moment they take part in our 'When I Grow Up Day' in EYFS through to our bespoke Transition to Secondary School Programme. Children are strongly encouraged to see that they can apply what they're learning in school to a spectrum of fantastic careers such as applying maths as a designer, engineer or an architect. We teach them how they can apply what they learn in the classroom to the world around them. At Parkland, we **Aim High, work Hard and Dream BIG!**
